Last but not least: A possible class discussion opportunity?

In light of the USA's decision yesterday to pull out of the 2015 Paris Agreement, what is our response? How will we and our future generations be affected? What is the role of our Christian stewardship as seen through the eyes of the Church of the Brethren? Last but not least, how will the decision to not participate affect our wallets? A response to the last question was on the Internet this morning at <http://www.msn.com/en-us/money/personalfinance/what-trump%e2%80%99s-decision-to-pull-out-of-the-paris-agreement-means-for-your-wallet/ar-BBxn5OR?ocid=spartandhp>
